Presentation:

The Didgeridoo and Australian Aboriginal Culture

Date: Monday April 10, 2017, 1:00pm

In 1998, cottage resident Larry Iwan's casual interest in the sounds of the didgeridoo, a folk instrument of the Australian Aboriginals, rapidly grew into an obsession with what he heard as the voice of the earth itself. He bought a didgeridoo, began to learn to play it, and eventually traveled to Arnhem Land in northern Australia to study Aboriginal playing techniques with Djalu Gurruwiwi, an Aboriginal master. While he was there, he befriended a number of Aboriginal people and grew increasingly interested in their history and their past and present culture. Australia's Aboriginal people have lived in Australia for at least 50,000 years, and may be the oldest continuous culture on the planet. The didgeridoo may well be the oldest horn amongst the musical instruments devised by humans for ritual and entertainment.

Cottage Resident Larry left a part of his soul in the red earth of Gulkula in the Northern Territory, and will evoke it to join him for his presentation. He will demonstrate didgeridoo playing techniques and play some improvisations and an authentic Yolngu (northern Australian) song he learned from his teacher. He will present a potpourri of information about past and present Aboriginal culture and encourage interested attendees to pursue this fascinating subject for their personal fulfillment.

The Pittsford Highlands' Chaplain, Jim Grobe, is available for one on one meetings. If interested, please sign up in the Program Book or contact Meg Rubiano ext. 6344 and a date and time can be arranged.

“UR” Always Learning Lecture:

Portugal from the Discoveries to Nowadays: Traveling Through History and Culture

Date: Monday, April 17, 2017, 4:00pm

Portugal, a small country located in the Southwestern Europe was, in the past, and alongside Spain, one of the major economic, political and military powers. In the 15<sup>th</sup> and 16<sup>th</sup> centuries, the Portuguese discovered unknown lands, and monopolized the spice trade. Today, and after a long period where Portugal was a dictatorship, the country no longer is important in the political and economical sphere worldwide. However, this small country left behind a profound cultural and architectural influence around the world. This talk will explore Portugal and its history from the Discoveries centuries to nowadays, highlighting some of its most remarkable cultural aspects while introducing some key survival words in Portuguese.

Teresa Valdez, PhD. is the Director of the Language Center, and Portuguese Program Head and Advisor at the University of Rochester. She has published several articles focusing on the acquisition of the Portuguese language by Heritage Learners, incomplete acquisition of the subjunctive, and textbook development. Most recently, she projected the new Language Center at the University of Rochester, and is currently working on the digital textbook for Heritage Learners of Portuguese.
